

# Liposomal prodrug principle – activation of AELs in tumor tissue by PLA2

EXHIBIT A

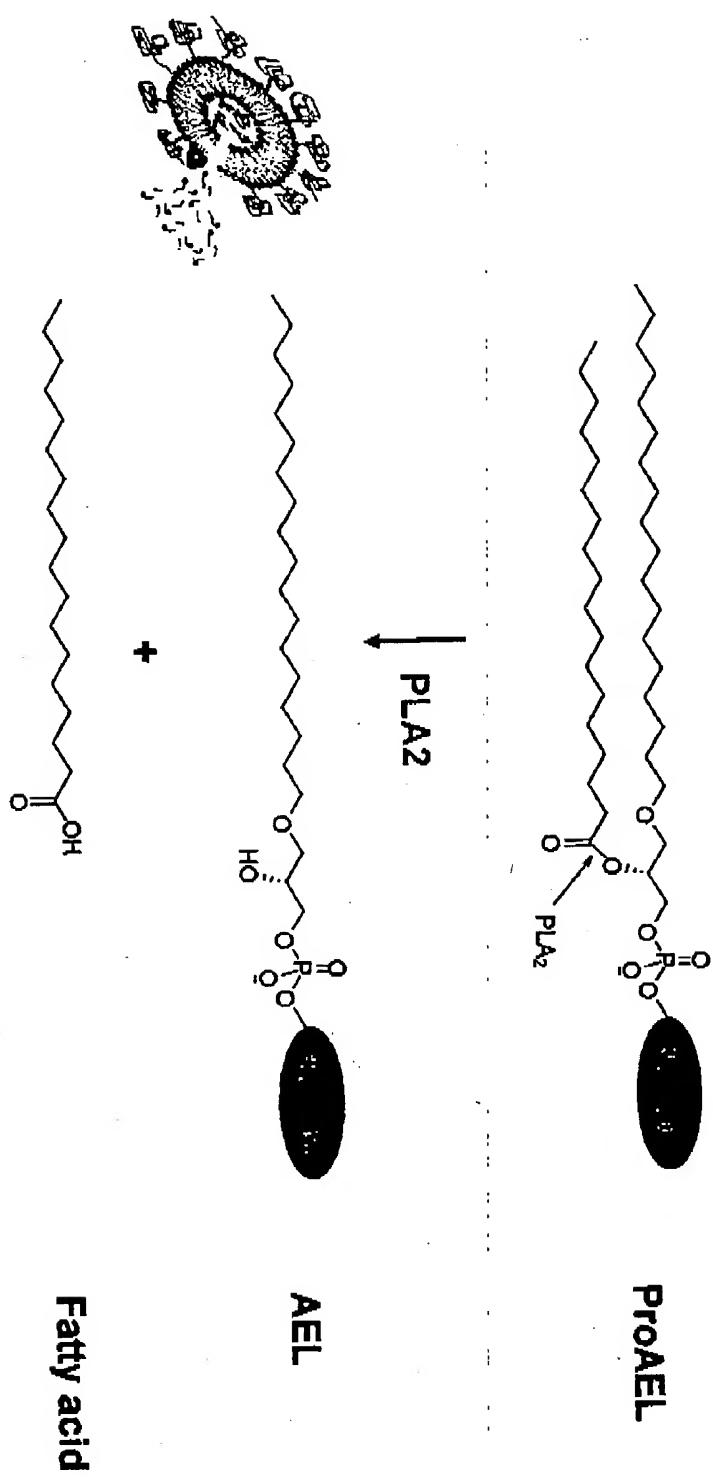

**anticancer lipid (AEL)**  
**prodrug of anticancer lipid (proAEL)**  
**extracellular phospholipase A2 (PLA2)**

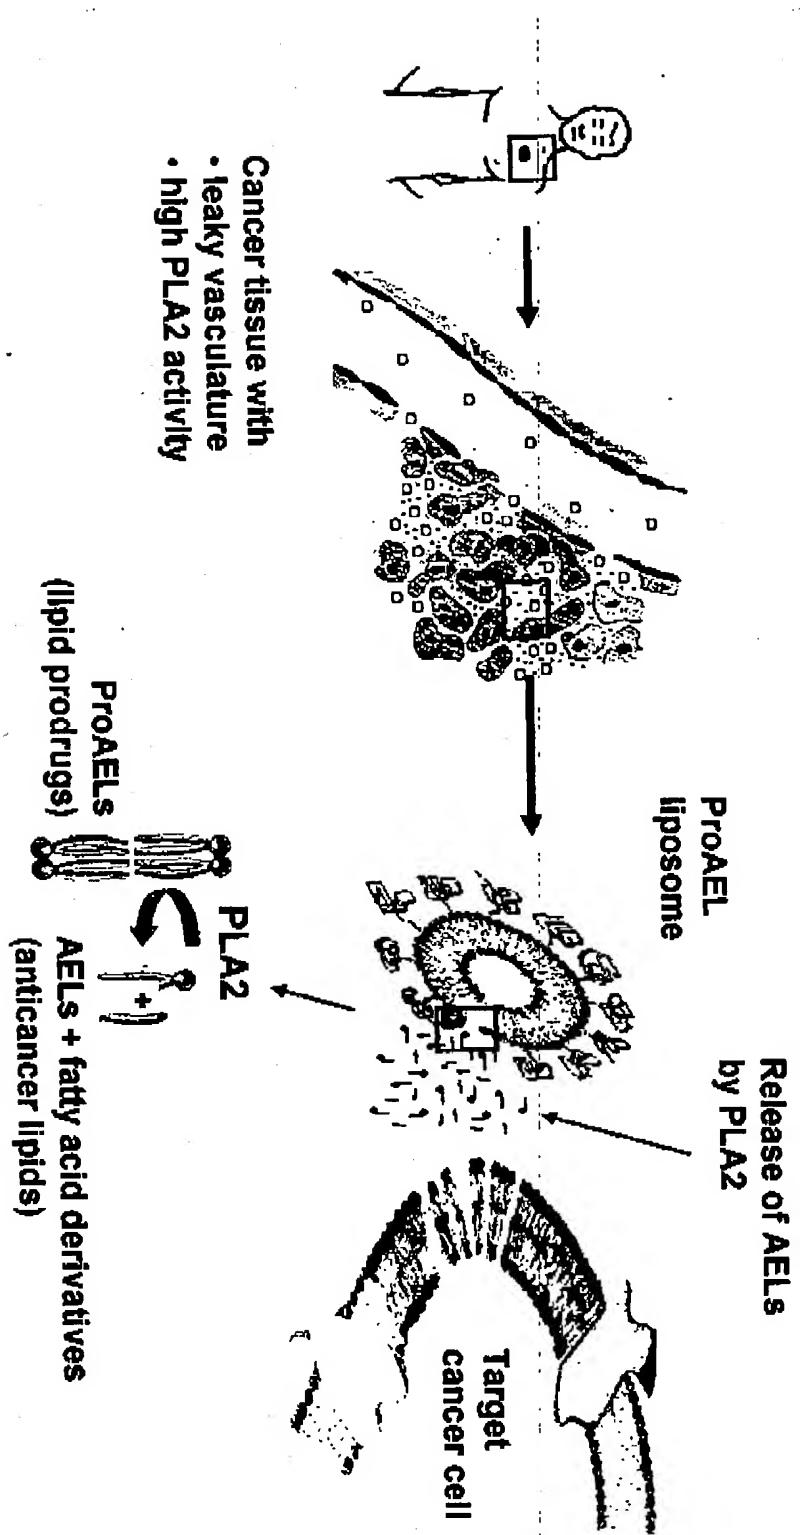

**AEL + fatty acid = proAEL lipid**

## PLA2 triggers AEL release in tumor tissue

# Tumor specific delivery of AELs by PLA2

# Tumor specific delivery of AELs by PLA2
